EXECUTIVE ORDER NO. 2006-10

**RELATIVE TO CREATING A CIVILIAN/MILITARY TASK FORCE TO
MAXIMIZE OPPORTUNITIES FOR THE CIVILIAN AND MILITARY
COMMUNITY RESULTING FROM INCREASES IN MILITARY
PRESENCE**

WHEREAS, numerous public and private entities, including the Guam Chamber of Commerce, the Guam Board of Realtors, the media, GovGuam utility agencies, GovGuam employment and training agencies and health and human service entities, have been communicating with the U. S. military on matters that are important to the interests of these entities; and

WHEREAS, a close partnership between the public and private sectors and the U. S. military must be created to facilitate military transformational initiatives and maximize opportunities available to the civilian and military community from planned increases in military presence; and

WHEREAS, the U. S. Military should be afforded an opportunity to discuss its expansion plans with a single entity to ensure that the myriad of concerns are comprehensively addressed; and

WHEREAS, there is a need to coordinate public agency activities to ensure consistency in the application of government-wide policy and to ensure that these policies are not adversely affected in the legitimate pursuit of specific agency interests; and

WHEREAS, public and private resources must be used effectively to ensure that Guam is adequately prepared to meet the needs of an expanding U. S. military; and

WHEREAS, the People of Guam have been consistent and steadfast in our support for America's military mission in Asia and the Pacific; and

WHEREAS, military transformation initiatives affecting Guam will add value to our country's ability to deter aggression, defend freedom and promote stability in the Asia Pacific region;

NOW, THEREFORE, I, FELIX P. CAMACHO, *I Maga'Lahen Guahan*, Governor of Guam, by virtue of the authority vested in me by the Organic Act of Guam, as amended, do order:

1. Honorable Camacho:

Mr. Gary Kuwabara and I would like to thank you for the invitation to attend the first Civil Military Task Force (CMTF) Meeting held on July 11th and the hospitality afforded us while we were on Guam. You and your staff ensured our trip to Guam was informative and productive. Mr. Kuwabara and I appreciated the opportunity to meet with you personally, prior to the CMTF Meeting, to hear first hand not only your concerns, thoughts, and observations about the challenges facing the Government of Guam, but more importantly about your vision for Guam. We were impressed with your observation and personal commitment to pursue a Government of Guam organizational structure that would be responsible and accountable to oversee the military build-up and integration of the military on the island of Guam. But more importantly an organization that is legislatively empowered to ensure continuity between "Administrations," given the anticipated protracted length of the proposed Guam program. We believe your observation about organizational structure and capability is very relevant and that the Government of Guam's ability to satisfy your vision will serve as a major underpinning to the Guam program and will contribute to the future success of the program. Making your senior staff available to have candid and insightful discussions was greatly appreciated and was beneficial. We fully understand the Government's anxiety to commence actions that will assist the military.

As highlighted, in our presentation to the CMTF, a primary purpose of our trip to Guam was to conduct an initial assessment and to initiate open and transparent lines of communication with the various stakeholders (military, Government of Guam, Federal Agencies, etc.) with the objective of developing a comprehensive assistant strategy. At this time, I would recommend we continue to work closely with key members of your staff on the following actions with the goal of mutually developing the initial Government of Guam Grant Application:

- Explore the establishment of a Government of Guam Organization that addresses your observations and fulfills your vision.
- Schedule an OEA follow on assessment visit to Guam. Potential assessment items:
 - Schedule individual meetings with each of the major infrastructure and/or service departments. Obtain an executive overview briefing about their respective department, major actions proposed or underway, resources and funding (to include a discussion about current and proposed Federal Grants).

- o Arrange for site visits to relevant Government of Guam owned and operated assets (port, electrical generation plant, waste water processing plant, public schools, etc.). Recommend the site visits be integrated with the previous item.
- o Schedule an informal meeting with Federal Agencies/Department that have local offices on the island of Guam.

Note: We should schedule this meeting with sufficient lead time so the appropriate meetings can be arranged. Jointly review the Pacific Command (PACOM) Guam Integrated Military Development Plan (GIMDP) once it is officially released.

The proposed interim actions listed above will serve as a starting point and will enhance our collective ability to develop an overarching assistance strategy and definitely aid in the development of an initial Grant Application.

We would appreciate your serious consideration of the proposed course of action and look forward to working with key members of your staff. If you or your designee has any questions, please contact Mr. Gary Kuwabara at (916) 557-7365 or at the following e-mail address: gary.kuwabara@wso.whs.mil. The Office of Economic Adjustment (OEA) looks forward to working closely with you and the Government of Guam on this challenging program.

Sincerely,

Anthony R. Gallegos
Western Regional Director
Office of Economic Adjustment
